## Defence Procurement

Helping you identify and capture new business opportunities

Jane's Defence Procurement delivers regular updates and up to 20-year projections for land, sea and air platforms and upgrades to enable you to:

- Identify potential revenue streams
- Track competitor activity
- Understand and forecast industry trends
- Support investment decisions
- Gauge dynamics affecting the industry

**Jane's Defence Procurement delivers programme-level coverage of three modules:**

### Military aircraft

Projects upgrades and procurement programmes across hundreds of airframes in more than 60 countries

### Combat vehicles

Vehicles and self-propelled platforms, armoured and non-armoured fighting vehicles, and fire- and combat-support vehicles

### Military ships

Major surface and subsurface platforms plus amphibious warfare ships, fast attack craft, mine warfare vessels and fleet auxiliaries.

# Jane's Defence Procurement contains:

## Regular updates on defence procurement

Details of platform programmes, which include platform details, operator, programme details and analysis, and revision history.

## Detailed defence budget summaries by country

Access summaries of your chosen country's defence budget and manpower, analysis of defence trends and details of military assistance.

## News, insight and updates

Drawing on content from Jane's leading titles including Defence Weekly, International Defence Review and Defence Industry, access news, insight and updates related to procurement of combat vehicles, military aircraft and military ships.

## Analysis of defence production and R&D by country

Drawing on content from Jane's Sentinel Security Assessment series, an executive overview provides a country summary, which is followed by information on the national defence companies of your chosen country.
