Featured benefit

Chemical Week Specialty Chemicals Insight

Timely coverage of developments in the specialty chemicals industry

A Corporate License (1-10 users) provides a balanced perspective on global developments in every sector of the specialty chemicals industry. These include catalysts, cleaning chemicals, surfactants, flavors & fragrances, pharma ingredients, and paints & coatings among others.

Designed for professionals in:

- Supply chain, feedstocks purchasing and procurement
- Strategy and planning
- Environmental, health & safety (EHS) and sustainability

Key Features

- Expert perspectives on global and regional trends in supply, demand, and capital investment
- Sustainability initiatives, including renewables within the feedstocks mix and emerging role of bio-based chemicals
- Deep-dive analysis of the value chain tracking the energy umbilical cord from midstream supply sources & infrastructure to key petrochemical products
- Industry efforts to reduce its carbon footprint through renewable energy sources and feedstocks such as hydrogen

Data

- Downloadable data: 5-year record of M&A, Projects, and Annual Results
- Curated data: A 30-day snapshot of Price trends, M&A, Projects & Macroeconomics

Key Benefits

- Adjust strategy and enable better informed decision-making
- Identify new investment opportunities & emerging trends across different bulk commodity chemical markets
- Get unique perspectives, and news analysis provided by Chemical Week experts

Corporate license for up to 10 users: \$9,995 annually.
