

Catalyst for Insight-Credit

New and used vehicle registration counts with loan origination data

Turn insights into actions

- Understand lender market share by new and used vehicle financing
- Set sales strategies and goals by territory
- Measure effectiveness of pricing strategies
- Analyze dealer performance by territory

IHS Markit, in partnership with TransUnion, offers the most comprehensive, accurate and timely vehicle registration data with automotive loan origination activity.

Get 24/7 access to the current plus five years of new and used vehicle registration counts by month with depersonalized loan and credit information.

Our powerful web-based platform provides fast, flexible and powerful statistical querying, reporting and analysis to help you make better, faster decisions.

Better Decision-Making through Powerful Analytics

- The Catalyst for Insight flexible query platform enables you to create custom market views tailored to your specific business needs
- The new and used registration database of the current plus five years of reporting months allows you to spot long- and short-term trends in the credit market down to a ZIP-code level

Better Data Coverage and Accuracy

- IHS Markit's proprietary VIN decoding software provides an estimated 2–5% lift in accuracy over the state-supplied data
- Supplemental data sources ensure best-in-class “garaging” of vehicles (where the vehicle resides) and better selling dealer coverage for more reliable and actionable information

Customize your queries and view by map, trend, graph or table

- Custom geography
- Basic and advanced calculations
- Integrated Google mapping
- Compatibility with Microsoft Office applications
- Export up to 25 million cells
- Create, save, subscribe to and share reports
- Custom bands for TransUnion Loan Origination Details
- Integrate your custom Dealer Codes
