CAMBRIDGE ASSOCIATES

Private Investment Benchmarks by Cambridge Associates

A trusted, widely adopted and informed benchmark offering
for private investments

Cambridge Associates, in partnership with IHS Markit, offers high-quality fund-level performance information for the global private investment universe.

Cambridge Associates' widely adopted benchmarks, built by and for investors, offer representative and comprehensive coverage of the private capital markets. They serve as a valuable tool in numerous use cases, including: performance measurement and monitoring, risk management, valuation, asset allocation, investment due diligence and capital raising. For General Partners (GPs) and Limited Partners (LPs) specifically, the benchmarks can help identify investment opportunities, support the fund manager selection process and provide data-driven intelligence to improve portfolio returns and better manage risks.

Available benchmark groups include:

- Private Equity
- Venture Capital
- Private Equity & Venture Capital (Aggregated)
- Private Credit
- Real Assets

Capital Raising

Industry Standard

For over two decades, the most trusted and widely adopted benchmarks for investors in private markets

Data Source

Benchmarks based on financial statements sourced directly from investment fund managers

Accuracy

Manager-reported performance is independently verified from quarterly and annual audited financial statements

Investment Experience

Benchmarks are built for investors by investors, incorporating four decades of experience investing in private capital markets

Depth & Breadth of Data

All major fund asset classes, strategies and geographies dating back as early as the 1980s. Complete performance history from 2,100+ funds managers and 8,100+ funds

Representativeness

Indices calculated using institutional quality funds, defined as closed-ended, co-mingled funds that invest third party capital

Index Construction

Cambridge Associates constructs returns using a complete history of the underlying quarterly cash flows and NAVs for each fund which then drives the calculation of performance metrics. Preliminary and published data are available for each benchmark. Performance metrics included are summarized below.

Metrics*

Horizon Pooled Returns

- Series of 1-Quarter Horizon IRRs, since inception
- Series of 1-Year Horizon IRRs, since inception (calendar and rolling)
- Multi-year Horizon IRRs (e.g. 1-year, 2-year, 3-year, etc.)
- mPME Horizon IRR for all available time horizons (limited to 3-6 predetermined indices)

Since Inception Metrics, by Vintage Year** (IRR, TVPI, DPI, RVPI)

- Pooled Return
- Average
- Equal Weighted (IRR only)
- Upper Quartile
- Median
- Lower Quartile
- Standard Deviation
- mPME IRR (limited to 3-6 predetermined indices)

*Fund count, LP, GP, and total capitalization included with all datasets, subject to data availability based on total sample size

**Since inception vintage year metrics subject to availability based on total sample size
