

Integrated Reporting

Transforming trade reporting

Reporting obligations across multiple regimes are becoming increasingly complicated, highly fragmented, and administratively burdensome. IHS Markit's Integrated Reporting offers a one-stop, cross-asset solution to assist firms in meeting the demands of the global regulatory reporting requirements. Our expansive coverage includes reporting for ASIC, Canada, CFTC, EMIR, HKMA, MAS and MiFID across credit, commodities, exchange traded derivatives, equities, foreign exchange and rates. The solution integrates all upstream platforms from IHS Markit, third party and client specific internal systems.

Integrated Reporting provides a full reporting workflow for our customers across submission, data management, reconciliation and monitoring. Our fully flexible and customizable offering has been designed to meet existing and future derivatives reporting requirements. It enables organizations to:

Access
an unparalleled network

Increase efficiency
with streamlined processes

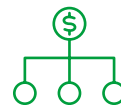

Connect
to major trade repositories
and key jurisdictions

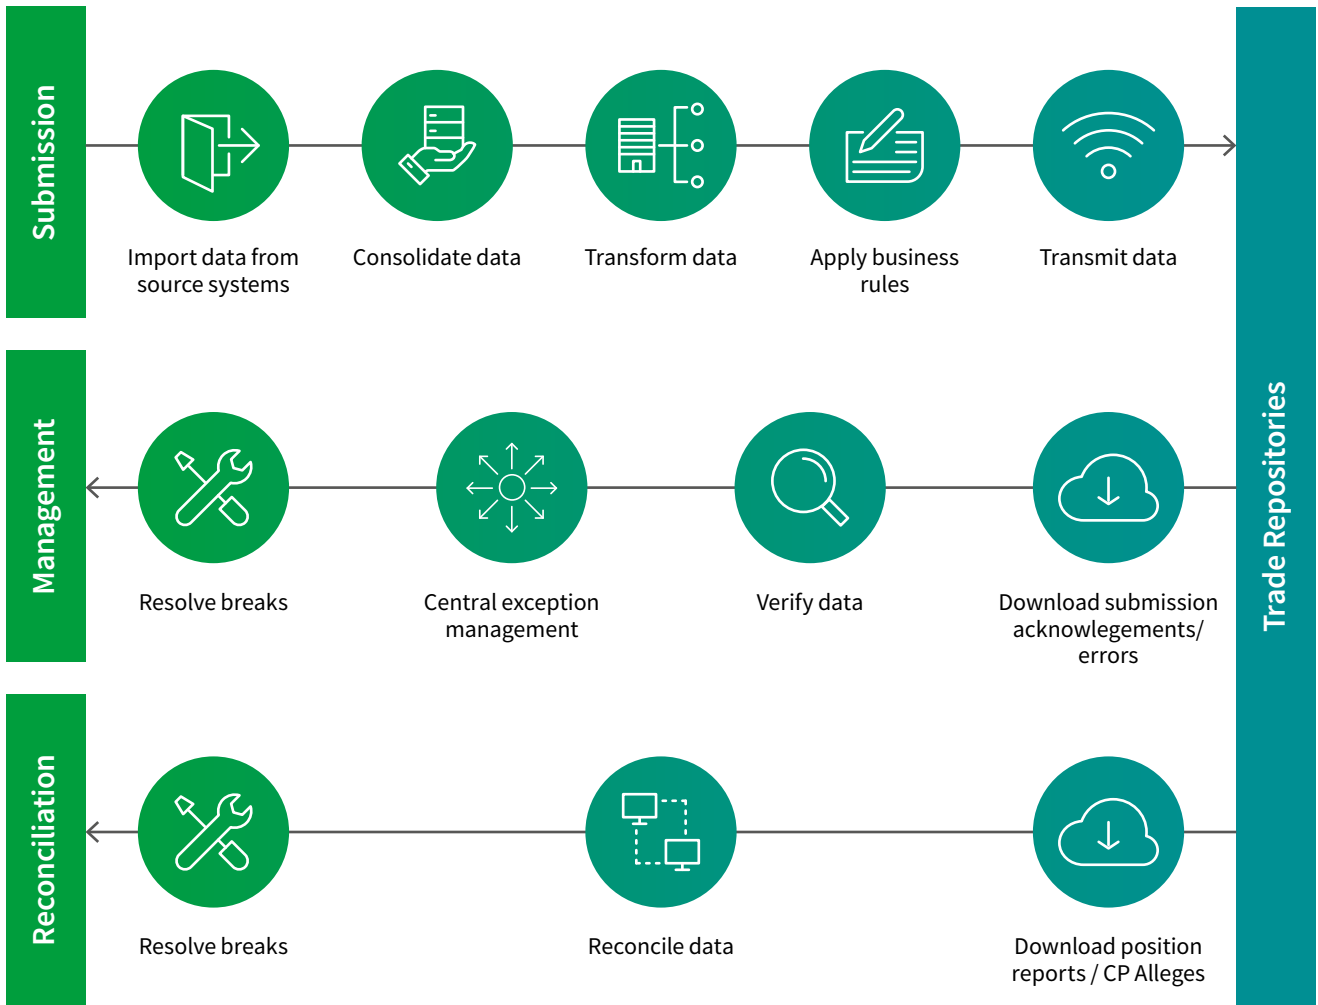

Reconcile reporting
issues with full audit trail

Reduce risk
of misreporting

Centralize
exception management
