Paint and Coatings Brand Names

A Guide to Trade names of Paint and Coatings Produced by Formulators in North America

THE CONN BLADE®

Patented blending/dispersing blade design makes radical improvement over old saw tooth designs

POLYETHYLENE

STAINLESS

- * Most efficient and aggressive blending/dispersing blade available.
- * Provides proper combination of pumping action and shear/dispersion essential for fast consistent results.
- * Built in pumping action cuts processing time.
- * Longer life due to heavier gauge construction.
- * Less heat due to shorter required running time.
- * Excellent for high or low speed and high or low viscosity.
- * Supplied with hubs or mounting holes required to retrofit and upgrade present equipment.
- * Pumping blades without teeth are available and are excellent for gentle blending and agitation.
