

Maritime Intelligence Risk Suite

Whatever your risk...

Identifying and evaluating maritime risk is a challenging business for marine insurers, finance, ship owners, operators and security agencies.

In today's ever changing global landscape understanding risk implications of international events, factors affecting operations and supply chains and spotting growth opportunities is vital to business success.

Minimising exposure to risk and maximising your operational efficiency requires reliable and accurate in-depth knowledge and insight.

Whether your risk relates to operations, monitoring and surveillance, piracy, war or other risks that could potentially impact your business, Market Intelligence Maritime Intelligence Risk Suite provides the insight you need to give your business a competitive advantage.

Alerting & Monitoring

- Watch & monitor ships of interest
- Be alerted on changes to a ships itinerary
- Notification Timeline - Quickly view all your notifications
- Events Alerts Service
- Bespoke zones to monitor ships of interest entering

The Maritime Intelligence Risk Suite

Integrates intelligence from our divisions such as Economics & Country Risk, Maritime, Trade & Supply Chain and a newly developed Risk Events database.

The suite provides the tools and intelligence needed to identify, evaluate, monitor and forecast potential risks to your business.

SEARCH

Search unrivalled intelligence on ships, owners, operators, managers, builders, ports, terminals and berths, maritime companies and casualty & risk events. View technical specifications, class, flag, commercial history, Port State Control events, port risk ratings and historical ports of call. Search results can be refined, filtered, exported, visualised in a quick analysis view and ships displayed in map view.

RISK TOOLS

Risk Event Information & Mapping

A newly developed risk events database which includes casualty, piracy and pollution events allows you to search for specific events, export data for in-house analysis, run reports, view event analysis charts and visualise on the interactive map. The maps risk layers display the last three years of risk events, JWC war zones, ECA zones and traffic density with the ability to filter by event type, event age and ship type.

Identify Maritime Threats

Understand global and local threats posed by the shipping fleet, view and research maritime risk events. Search a newly developed risk events database that includes casualty, piracy and pollution events to identify high or low areas of risk and forecast potential risks. Use the maps risk layers to help visualise maritime risk events, JWC war zones, ECA zones and traffic density with the ability to filter by event type, event age and ship type for further granularity. Access to timely and accurate intelligence is key for planning operations, reducing risk and acting immediately.

Forecast & Analyze Risk

Access to reliable and accurate maritime data provides you with the information and tools needed to conduct research and gather detailed information on the global fleet, technical ship specifications, trading patterns and risk event analysis. Forecast change in trends that may affect future premiums and business opportunities. Access to comprehensive maritime data sources helps effective risk assessment and strategic planning to minimise cost implications to your business. The Maritime Intelligence Risk Suite's analysis view provides interactive data visualisation of search results that can be exported for further analysis and assist in developing risk rating models.

Understand Operational Risks

Optimise operational efficiency to reduce costs and reduce potential risks to operations and supply chains. Visualise, search and track real-time AIS ship positions of the global fleet when transiting through high risk zones. View a ports risk rating, evaluate port traffic and view weather forecasts to help plan your voyage on a state of the art interactive map. Watch an unlimited number of ships and receive alerts on itinerary changes. Use the Suite's maritime tools to determine competitor activity, undertake operational analysis and benchmark performance.

Supporting your business decisions

Insurance & Finance

- Customer Vetting, Assessing & Forecast Analysis
- Undertake ship and company research
- Monitor Port State Control Events
- Identify ownership levels
- Monitor ships in high risk zones
- Search casualty & risk events
- View port risk ratings
- Identify global trading patterns
- Analyze live and historical movements
- Understand market share

National Security

- Identifying, Monitoring & Forecasting Security Risks
- Verify ships in your waters
- Identify ships in high risk areas
- Mid-ocean, coastal & port monitoring
- Monitor ships in custom zones
- Live & historical ship tracking
- Live alerts service with
- Latest updates
- Piracy and security intelligence
- Risk event analysis

Ship Owners/Operators

- Operational Efficiency & Risk Management
 - Track a fleet in real-time
 - Analyze a fleet's movement history
 - Evaluate risk when voyage planning
 - View weather forecast intelligence
 - Know if a ship enters a high risk area
 - Identify a vessel's chartering risks
 - Analyze and benchmark performance
 - Monitor competitor activity
-

Trade compliance solutions: containers

Complement our world renowned and trusted vessel tracking service with complete visibility on container movements, transits and carriers

20,500 Ports & Terminals | **97%** of global container shipments

Verify the bill of lading number and the container number in one dashboard

Maritime, Trade & Supply Chain Insight

Why Maritime, Trade & Supply Chain?

Market Intelligence is the leading source of critical maritime, trade and supply chain insight, enabling organizations, policy makers and security to navigate today's complex trading environment. Successfully managing inter-connected global supply chains requires a detailed understanding of continually evolving patterns of international trade flows, and with over 90% of international trade being transported by ship, success requires an in-depth understanding of the shipping industry.

We are the sole originating source for assigning IMO Ship and Company numbers, guaranteeing an unmatched level of accuracy and depth of coverage for vessel characteristics and ownership data. We hold the world's largest ship and company databases and our Maritime solutions legacy spans over 250 years. Successful trading decisions rely upon the latest information on international trade flows, as well as real-time intelligence on the precise locations of cargos on their way to global markets. For shipping companies, success requires staying one step ahead of your competition.

S&P Global Market Intelligence

At S&P Global Market Intelligence, we understand the importance of accurate, deep and insightful information. Our team of experts delivers unrivaled insights and leading data and technology solutions, partnering with customers to expand their perspective, operate with confidence, and make decisions with conviction.

S&P Global Market Intelligence is a division of S&P Global (NYSE: SPGI). S&P Global is the world's foremost provider of credit ratings, benchmarks, analytics and workflow solutions in the global capital, commodity and automotive markets. With every one of our offerings, we help many of the world's leading organizations navigate the economic landscape so they can plan for tomorrow, today.
