S&P Global
Commodity Insights

Enabling partnerships that matter

A unique ecosystem enabling the alignment of solutions with new market segments.

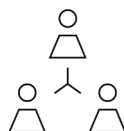

Our Conferences provide key moments for decision makers in the commodity and energy markets to gather, understand market dynamics and directions and seek solutions to a more sustainable future together.

By partnering with S&P Global Commodity Insights, you can share your story on a global scale to a discerning audience across energy and other commodities.

One Business Platform

A Partnership with S&P Global Commodity Insights partnership drives trust and value for customers as a real-world use case.

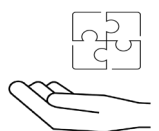

C-level Relationships

Leverage the S&P Global CI existing relationships with C-level/CIOs/CTOs who are shaping the cloud-based future across sectors we serve.

Geographic Reach

Unrivalled geographic reach convening decision-makers across the wider energy value chain. Physical presence across continents and influence worldwide.

Depth of Content

Our conferences' exclusive content, supported by S&P Global expertise, enables you to align solutions to a focused audience by sector in a specific topic environment.

What makes us different

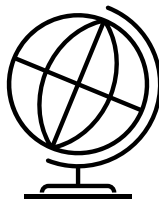

Global Portfolio, Global Reach

S&P Global Commodity Insights hosts a variety of global conferences annually covering key markets including oil & gas, chemical, power, hydrogen, carbon, energy transition, agriculture and metals.

At S&P Global Commodity Insights Conferences, thought leadership meets targeted markets, generating formidable brand awareness and lead generation opportunities.
