

# E-Mobility Service

Vehicle electrification is one of the most impactful and long-term trends in the automotive industry. For OEMs to comply with impending carbon dioxide legislation and regional emissions targets, alternative propulsion vehicles are entering OEM product portfolios.

The automotive industry is in transition away from the conventional powertrain, with a long-term aim to fully decarbonize the vehicle parc.

The IHS Markit's E-Mobility Service provides insight, context, data, and analytics to help navigate the transition to an electrified powertrain and associated infrastructure.

Users can quickly access key insights from market developments, put context around events and technological trends, dive into detailed data and forecasts, and seamlessly drive analytics to support their most challenging decisions.

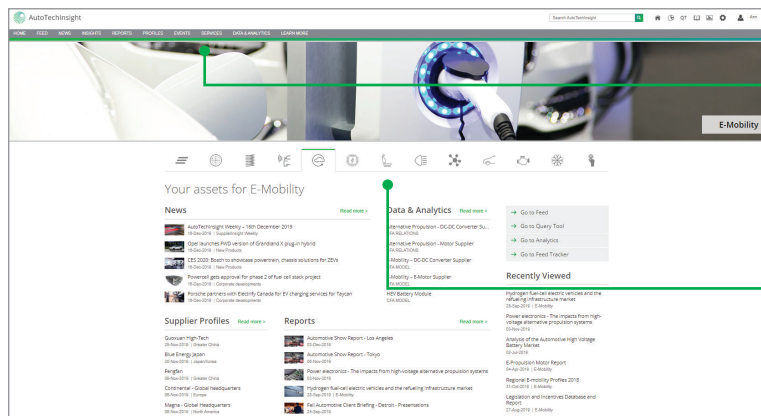

## Topics covered

- Electric vehicle/hybrid electric vehicle/plug-in hybrid electric vehicle/fuel-cell electric vehicle production volumes
- Legislation and incentives
- Electric vehicle charging infrastructure and wireless power
- Regional e-mobility profiles
- Electric vehicle technologies: battery, motors, DC DC converters, inverters
- Vehicle specifications and supplier data
- Hydrogen fuel-cell electric vehicles

## Planners and strategists use the service to:

- Plan for next-generation systems
- Research emerging technology solutions
- Develop a competitive electrification strategy
- Assess technology adoption rates
- Formulate product portfolio strategy

## Available through AutoTechInsight:

Drop-down menu to quickly and easily access News & Insights, Reports, Supplier Profiles, Services, Data & Analytics, Events and more.

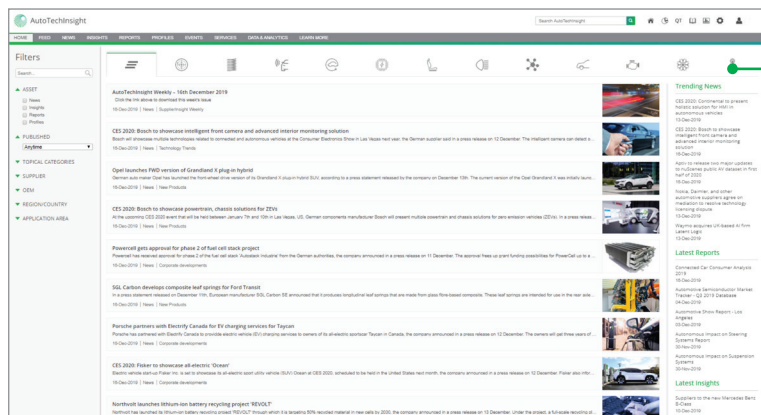

Home page dedicated to your subscription and purchased content.

Tabs for all 12 services where you can filter down and explore each service in detail.

View trending news.

The **E-Mobility Service** is part of a suite of vehicle contenting services. Delivered through AutoTechInsight, an IHS Markit automotive strategy and planning solution, the service provides a view into current automotive trends and future demand through

- Sector news and insights
- Topical reports
- Supplier profiles
- CFA-Relations (OEM-Supplier relationships, both analyst and survey-based researched databases)
- Access to analysts and webinars
- OEM-level and model-level forecasts, technology fitment, and supplier relationships (optional add-ons)
