

Thermal Management Service

Thermal management is critical for maintaining cabin comfort and propulsion temperature control in all conditions. Environmental concerns, emissions compliance, and greater penetration of hybrid and electric vehicles are driving increased value-added opportunities in this sector as well as difficult material and architecture-selection decisions.

The IHS Markit Thermal Service provides insight, context, data, and analytics for key technologies that are reshaping the thermal sector. Users can quickly access key insights from market developments, put context around events and technological trends, dive into deep data and forecasts, and seamlessly drive analytics to support their most challenging decisions.

Topics covered

- Heating, ventilating, and air conditioning (HVAC) systems technology and its management
- Thermal management systems applied to powertrain components (e.g., cooled exhaust gas recirculation, EV propulsion)

Planners and strategists use the service to:

- Assess and forecast new thermal technology growth
- Analyze the competition
- Understand OEMs' purchasing strategies
- Evaluate OEMs' thermal technology adoption paths

Available through AutoTechInsight:

Drop-down menu to quickly and easily access News & Insights, Reports, Supplier Profiles, Services, Data & Analytics, Events and more.

Home page dedicated to your subscription and purchased content.

Tabs for all 12 services where you can filter down and explore each service in detail.

View trending news.

The **Thermal Management Service** is part of a suite of vehicle contenting services. Delivered through AutoTechInsight, an IHS Markit automotive strategy and planning solution, the service provides a view into current automotive trends and future demand through

- Sector news and insights
- Topical reports
- Supplier profiles
- CFA-Relations (OEM-Supplier relationships, both analyst and survey-based researched databases)
- Access to analysts and webinars
- OEM-level and model-level forecasts, technology fitment, and supplier relationships (optional add-ons)
