IHS Markit Crop Science

At IHS Markit, we offer market-leading crop science information solutions powered by our globally recognised brands of *Agrow* and *Phillips McDougall* across 700+ active ingredients and 14 major crop groups. Our specialist team of crop protection and seed experts offer comprehensive news, data and independent analysis across the global industry, with market reporting, data and market forecasting solutions to support all operational needs in your organisation.

These services are part of IHS Markit's agribusiness industry solutions, with a suite of services offering an unparalleled depth of understanding and expertise over a multitude of complex markets. To learn more about our capabilities across the agribusiness value chain, [click here](#).

(Marketing Manager)
fvanel@staphyt.com
www.staphyt.com/regulatory

Staphyt Regulatory Affairs provides services in chemical regulatory affairs. Operating in the agrochemicals, biologicals, biocides and general chemical sectors, our mission is to keep manufacturers informed about the regulations that apply to their businesses. We help our clients to achieve smooth entry to the market of their substances and products, in compliance with national and European regulations.

Our expertise covers all areas related to chemical risk assessment: Physico-chemistry, analysis, toxicology, ecotoxicology, residues, biological efficacy, etc. Our team brings together the expertise of scientific and regulatory experts, and we can also rely on a network of external consultants throughout Europe.

Plant Protection & Nutrition expertise:

We can assist you in all regulatory procedures required to obtain active substance approval and/or product authorisation for both chemical and biological products (EC 1107/2009, EC 2003/2003, EC 2019/1009 etc.).

Benefits of working with us:

Both agronomic experimentation and regulatory affairs expertise gathered in one service company! We offer you real added value by taking charge of your projects from the earliest stage all the way through to registration.

Kerona Scientific

Kerona Scientific Ltd.

Head Office:
Kerona Scientific Ltd.
30 Thomas Hand Street
Skerries
Co Dublin
K34 RX24
Ireland
Tel: +353 1 849 5284

Kerona Scientific is an award winning European regulatory consultancy, headquartered in Ireland with offices also in Southern Europe (Spain).

We specialise in providing quality and timely regulatory services to our clients, who include some of the leading names in the proprietary and generic plant protection, biocides, fertilisers, plant biostimulants and biopesticide industries.

Kerona Scientific provides strategic regulatory advice to clients on the project management of new product introductions, from concept through to marketing as well as optimization of existing portfolios.

Working with chemical, microbial and low risk active substances, our services include but are not limited to:

Kerona Scientific Ltd.	
<p>info@kerona.ie www.kerona.ie</p> <p>Kerona Scientific Ltd. Paseo de la Castellana, 179 C.P. 28046 Madrid España Tel: +34 912 865667</p>	<ul style="list-style-type: none"> • Comprehensive data gap analysis, with costs and timescales of any required studies. • Study commissioning and monitoring, from first request for quotations to review of protocols, draft reports and final reports. • Task force management • Preparation of full zonal dRR dossiers and national addenda including all summaries evaluation and risk assessment. • Project Management of renewal of active substances at EU level (AIR programmes). • Preparation of biological assessment dossiers (BAD). • Data matching evaluations for AIR projects. • Technical equivalence applications for new or secondary sources. • Literature searches • Preparation of product SDS • Classification and labelling advice • REACH services <p>Our clients benefit from our experience amassed over 26 years and spanning all areas from plant protection products (Regulation (EC) No 1107/2009) to biocides (Regulation EU (No) 528/2012), fertilisers, plant biostimulants and agronomic additives at European and Member State level. Our native English, German, Spanish, Lithuanian, Polish and Arabic speakers can assist with registrations across the Middle Eastern and all European regions.</p>

LKC Switzerland

LKC Switzerland Ltd	
 <p>LKC Switzerland Ltd PO Box 167 CH-4414 Füllinsdorf Switzerland Tel: +41 61 906 85 00 Fax: +41 61 906 85 09</p> <p>Contact: Dr David Kane LKC@lkc-ltd.com www.lkc-ltd.com</p>	<p>LKC provides clients with independent regulatory experience and advice for cost effective global registration of their specialty chemical products.</p> <p>Companies benefit with their strategic development which includes established contacts with Regulating Authorities, contracting and monitoring studies including higher tier studies; interpreting the impact of findings; conducting risk assessments, submitting regulatory dossiers including CADDYxml, IUCLID and METI formats and support post submission.</p> <p>As a GLP certified facility LKC can conduct multi-site supervised residue and operator exposure studies. With a global network of regulatory advisors with a focus on major regions of agronomic importance, LKC can offer clients global support.</p> <p>Contact LKC for scientific and practical solutions to your regulatory challenges.</p>

Compliance Services International

Compliance Services International	
 <p>Compliance Services International (CSI) info@complianceservices.com www.complianceservices.com</p>	<p>Since 1988, CSI has been specialising in regulatory and scientific consultation to the crop protection and allied industries.</p> <p>CSI's services include agrochemical, biopesticide/biostimulant, biocide, chemical and cosmetic registration, hazard assessment (including QSAR, GHS CLP and Endocrine Disruptor potential), exposure assessment (including modelling), risk assessment (including for human and veterinary medicines, and relating to endangered species), study monitoring, data compensation evaluations, and M&A regulatory due diligence.</p> <p>In the EU, CSI can assist with Member State (including Mutual Recognition) or pan-EU compliance with key Regulations, e.g. EU 1107/2009 (Plant Protection), EU 528/2012 (Biocides) and EU 1907/2006 (REACH). CSI can also provide support for global regulatory strategies (including under the OECD Joint Review Process for Pesticides).</p>

EBRC Consulting

EBRC Consulting GmbH	
 <p>EBRC Consulting GmbH mail@ebrc.de www.ebrc.de</p>	<p>EBRC services include full regulatory support for plant protection products, biocides and industrial chemicals (REACH). Assistance is provided for plant protection product registrations according to all EU national legislations and EU requirements, including biological dossiers, complex exposure/risk assessments and computer modelling of environmental fate behaviour.</p> <p>Additional speciality services are available for non-crop uses of active substances, but also for niche products (such as rodenticides) and inorganic compounds. Dossier compilation is available in CADDY as well as IUCLID format. Task force management, project coordination and scientific monitoring of experimental investigations complete this package of services.</p>

ERM (Environmental Resources Management)

ERM (Environmental Resources Management)	
 <p>ERM - Environmental Resources Management harrogate-enquiries@erm.com www.erm.com</p>	<p>Regulatory specialists guiding you through the registration complexities of the agrochemical, biocide and chemical industries. Our team of European regulatory experts including the acquired team at JSC International can extend support globally through ERM's product services offering.</p> <p>Environmental Resources Management (ERM) is one of the world's leading providers of EHS and sustainability management, technical consulting and IT implementation services, with considerable experience in providing global product stewardship services.</p>

SCC (Scientific Consulting Company)

SCC (Scientific Consulting Company)	
 <p>SCC (Scientific Consulting Company) Am Grenzgraben 11 55545 Bad Kreuznach Germany Tel: +49 671 298 460</p> <p>Contact: Dr Bernd Brielbeck info@scc-hq.de www.scc-gmbh.de</p>	<p>Since its establishment in 1989, SCC (Scientific Consulting Company) has been supporting its international customers with cost-efficient tailored solutions for their scientific and regulatory needs within and outside the EU.</p> <p>Our expertise extends over a broad range of areas, including agrochemicals, biorationals and fertilisers (biostimulants), chemicals and biocides, feed and food additives, food contact materials, cosmetics and consumer products, medical devices, pharma pre-clinical and legal services.</p> <p>SCC has 2 offices in Germany – the headquarters in Bad Kreuznach and an office in Berlin and runs SCC Japan K.K. in Tokyo.</p> <p>In 2019, SCC GmbH established SCC Legal to provide its customers with high quality legal services for chemical regulations of plant production products, chemicals and biocides as well as consortia management.</p> <p>We care for your success.</p>

SGS Group

SGS Group

eplinfo@eplbas.com
www.eplbas.com

EPL Bio Analytical Services (EPL BAS) is an agriculture-focused analytical contract laboratory that operates in compliance with Good Laboratory Practice (GLP) standards. EPL BAS is accredited to the International Organization for Standardization (ISO) General Requirements for the Competence of Testing and Calibration Laboratories (ISO 17025:2005) with additional requirements outlined in the 2010 AOAC International Guidelines for Laboratories Performing Microbiological and Chemical Analyses of Food and Pharmaceuticals.

EPL BAS serves agricultural biotechnology and chemical companies by analyzing feed and food ingredients, organic products, genetically modified crops, biopesticides, plant protection agents and crop chemicals using advanced technology in the areas of nutritional chemistry, product chemistry, residue chemistry, molecular biology, method development and validation. Through these methods, EPL BAS produces laboratory data used to confirm that agricultural by-products are safe for people and the environment. They bring innovative technology and skill to the industry while working with a wide variety of agricultural samples.

IES

IES Ltd (Innovative Environmental Services)

IES Ltd.
info@ies-ltd.ch
www.ies-ltd.ch

Innovative Environmental Services (IES) Ltd is an independent and privately owned GLP-certified contract research organisation (CRO) which performs environmental fate, metabolism, aquatic and terrestrial ecotoxicology, and analytical chemistry testing to support the development, registration and stewardship of pharmaceuticals as well as agrochemical, biocidal and chemical products in a prompt, flexible and cost-efficient manner.

At IES Ltd, we cooperate with authorities, research institutes and clients on a regular basis to improve existing test systems and guidelines, and to develop alternative and more cost-effective studies to satisfy the stringent and demanding regulatory requirements. Participation in ring-testing, scientific working groups and workshops is an integral part of our company philosophy.

IES' GLP testing facilities and equipment are state of the art. All laboratories, incubation rooms, growth chambers, cooling and freezing facilities are temperature and, if required, humidity controlled. Our outdoor facilities consist of greenhouses, crop metabolism areas and agricultural land.
