

iBoxx[®] Singapore Dollar (SGD) Bond Index

The iBoxx Singapore Dollar (SGD) Bond Index is designed to reflect the performance of Singapore dollar (SGD) denominated debt.

The index rules aim to offer a broad coverage of the SGD bond universe, whilst upholding minimum standards of investability and liquidity. The index currently comprises more than 230 bonds from 90+ issuers.

The index is an integral part of the global iBoxx index families, which provide the marketplace with accurate and objective indices by which to assess the performance of bond markets and investments. The index rules are transparent and the index is independently calculated and administered by IHS Markit.

Transparent, independent, objective, and multi-dimensional coverage across all asset classes.

Transparency

Documentation on our rules-based methodology for constituent selection, monthly rebalancing and daily total return calculations is publicly available.

Independence

iBoxx[®] products utilise independent multi-source pricing and reference data subject to rigorous quality testing, with a fully documented price challenge process in place. IHS Markit is committed to administering all financial benchmarks in compliance with IOSCO benchmark principles and is an authorised benchmark administrator under the European Benchmark Regulation (BMR).

Multi-dimensional analysis

A wide range of analytical values are published to support risk, performance measurement and attribution analysis.

Flexibility

iBoxx[®] offers the ability to customize indices to meet specific criteria.

Depth of data

A broad history of index and sub-index returns and analytics are available and published frequently to support index analysis.
