

# Get Link

## Accelerate Knowledge Sharing and Problem Solving within the Largest Library of Critical Engineering Content

Engineers and other technical professionals spend a third or more of their time searching for the information and insights they need to solve problems and develop solutions. Get Link by IHS Markit allows these professionals to quickly create and share links in Engineering Workbench to reference specific Codes and Standards, reducing search time and mitigating risk with complete documentation and traceability.

### Get Link at Work

Get Link is a powerful tool that allows technical professionals to quickly, easily, and confidently create and share links to referenced knowledge within the extensive library of Engineering Workbench Codes and Standards. Using exclusive technology, Get Link instantly allows users to create links to reference Codes and Standards entire documents, specific pages, or specific sections within a document, accelerating research and problem solving.

Using the capabilities of Get Link, technical professionals are able to:

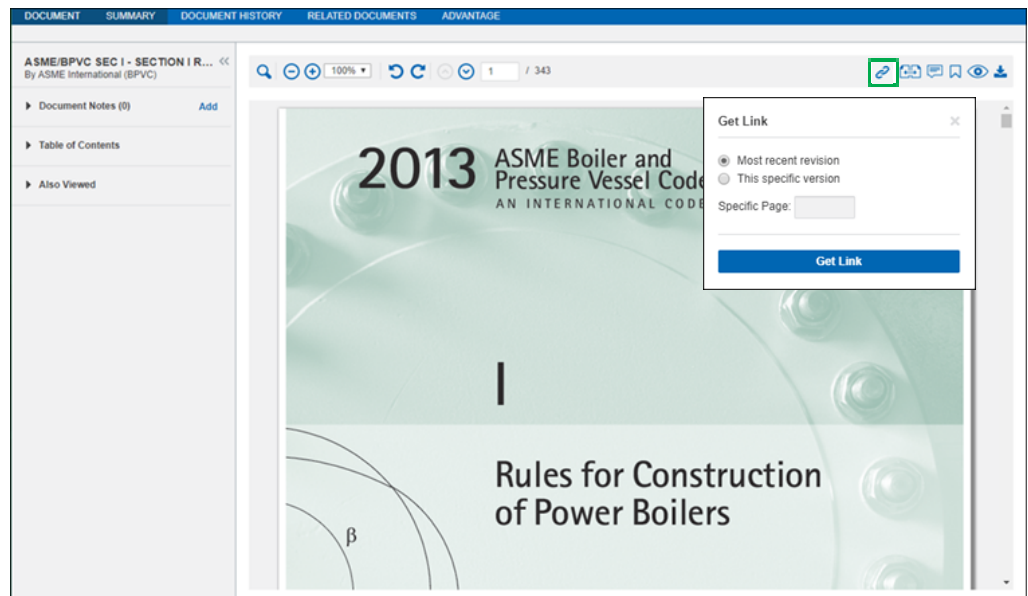

- Efficiently capture information to make references again in the future
- Mitigate risk with complete documentation and research traceability
- Respect all copyright rules and regulations
- Quickly and easily share reference links with any team member

**Get Link by IHS Markit** makes your engineering teams more efficient with the ability to quickly create and share specific links to reference all Codes and Standards documents.

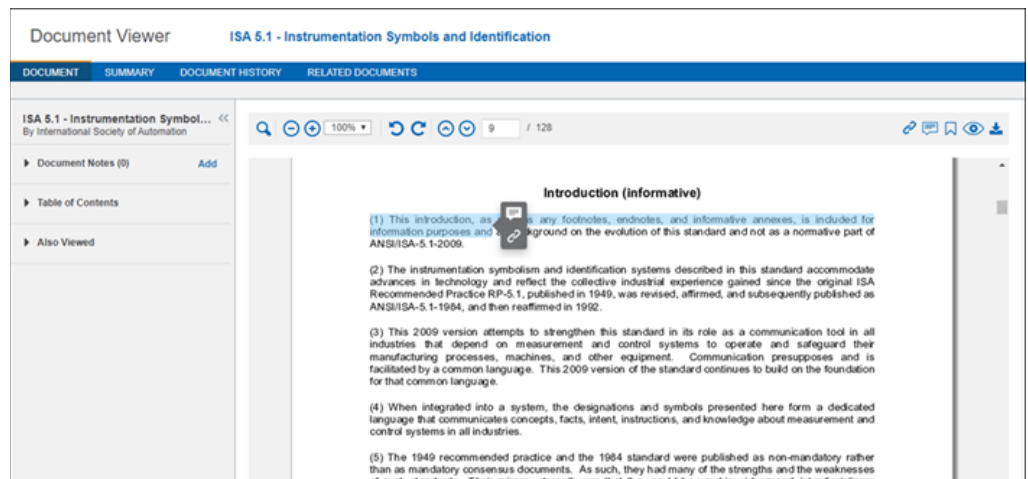

Mitigate risks and increase efficiencies by ensuring your teams are quickly identifying and sharing reliable references within the largest library of Codes and Standards documents.

## Get Link Capabilities

At the top of the Document or Summary Tab of the Document Viewer, click , which opens the Get Link dialog box.

Choose to get a link to the Most Recent Revision or This Specific Version of a document.

Highlight a specific section of the document to instantly create a link to that exact section within the document.
