The MSCI USA Index measures the performance of the large and mid-cap segments of the US market. The index covers approximately 85% of the free float-adjusted market capitalization in US. IHS Markit provides the securities lending return made from securities in the index since 2015 and further provides a break down by fee categories, top sectors as well as the level of short interest in the index constituents. There are currently 627 securities in the index and all of the market areas that are part of the index. Funds are classified on a daily basis for individual market areas within the index.

Returns from securities lending relative to lendable value from only those lender funds with active loans in the respective market areas that are part of the index. Funds are classified on a daily basis for individual market areas within the index. The MSCI USA Index measures the performance of the large and mid-cap segments of the US market.
