## **Ipreo Municipal Information Center**

# Centralized platform for comprehensive municipal securities data and market information

Integrated within our municipal bookrunning system, Ipreo Municipal Information Center (MuniIC) is a suite of data applications that collectively provide the full range of municipal market information, both historical and in real-time.

MuniIC includes MuniAnalytics, MuniCalendar, and MuniWatch, which combine to provide the market insight needed to make better business decisions.

**Ipreo MuniAnalytics** is a comprehensive database of municipal new-issue securities data offering easy-to-use filters and search of extensive lists of items including deal, series, syndicate, and scale (including coupons, pricing and cusip numbers), and providing accurate results.

**Ipreo MuniCalendar** provides quick and accurate deal information on municipal new issuance through our flexible and intuitive web-based tool.

**Ipreo MuniWatch** provides detailed market event timelines, real-time information, and critical market analysis, all while delivering unmatched timeliness, broad market coverage, and access to the most complete municipal securities data and new issuance calendar.

#### **Ipreo MuniAnalytics**

- Quickly search from a select list of frequently used queries
- Preview your search results and search within the output
- Build reports from a comprehensive list of elements and easily re-run frequently-used reports
- Export into Word, Excel, or PDF

#### Ipreo MuniCalendar

- Intuitive calendar view by month, week, or date (not simply by list)
- Calendar provides both current and historical view (back to 1998)
- Analyze a snapshot of the market through detailed monthly calendar which includes total negotiated and competitive volumes
- Access sales results and bid information directly within the calendar
- Additional robust search tool for direct access to deal information and overview reports
- Overview reports show detailed account of the issue (including deal summary, bid specifications, series, and maturities)
- Straightforward report structure makes it easier to view winning and other bids
- Direct links to the issuer's previous sale and Final OS on EMMA
