The iBoxx European ABS Index family is designed to measure the performance of EUR, GBP and USD denominated asset-backed securities originating from Europe. The index family allows market participants to benchmark to indices with various asset class, rating, currency, and country of collateral profiles. Investors can measure the relative performance of their assets to the overall index or relevant sub-index. Researchers can gain a better understanding of the returns available from the European ABS market, and advisers and fund managers will obtain insight into the relative performance of this assets class against other fixed income markets.

The indices are part of the global iBoxx index families, fueled by multi-source pricing. iBoxx indices offer representative and objective benchmarks for assessing the performance of bond markets and investments.

**Transparency**
Documentation on our rules-based methodology for constituent selection, monthly rebalancing and daily total return calculations is publicly available.

**Independence**
iBoxx® products utilise independent multi-source pricing and reference data subject to rigorous quality testing, with a fully documented price challenge process in place. We are committed to administering all financial benchmarks in compliance with IOSCO benchmark principles and is an authorised benchmark administrator under the European Benchmark Regulation (BMR).

**Multi-dimensional analysis**
A wide range of analytical values are published to support risk, performance measurement and attribution analysis.

**Flexibility**
iBoxx® offers the ability to customize indices to meet specific criteria.

**Depth of Data**
A broad history of index and sub-index returns and analytics are available and published frequently to support index analysis.

Index Eligibility Criteria

**Issuer type**
The instruments must be collateralised by an originating entity domiciled in Europe and must be issued by Special Purpose Vehicles (SPVs). Complex structures, such as CDOs, are not eligible.

**Bond types**
**Included:** Floating-rate bonds, sinking funds and amortizing bonds, fixed-to-floater bonds (only after the switch to a floating rate coupon), tap issues

**Excluded:** Fixed-rate bonds, fixed-to-floater bonds (during the fixed coupon period), private placements

**Securitization type**
**Included:** Auto loans, Commercial Mortgage-Backed Securities (CMBS), Residential Mortgage-Backed Securities (RMBS), Buy-To-Let Residential Mortgage-Backed Securities (BTL RMBS), Prime Residential Mortgage-Backed Securities (PRMBS), non-conforming Residential Mortgage-Backed Securities (SPRMBS), credit cards, equipment leases, insurance premium loans, balance sheet collateralized loan obligations, Small & Medium-sized Enterprise (SME) collateralized loan obligations, student loans, trade receivables, whole business securitizations

**Excluded:** Collateralized Debt Obligations (CDOs), leveraged collateralized loan obligations

**Time to maturity**
All bonds must have at least one year time to maturity at issuance. All fixed coupon rate bonds must have at the rebalancing day a time to maturity of less than or equal to one year. Bonds are kept in the index until maturity.
All floating rate notes must have at the rebalancing day a time to maturity of less than or equal to three years. Notes are kept in the index until maturity.

**Amount outstanding**
At inclusion, minimum 500 million outstanding in local currency for originally AAA-rated securities, 30 million outstanding in local currency for securities originally rated AA and lower.

**Rating**
All bonds need to have an average rating of CCC or higher. Ratings from Moody's, S&P and Fitch are considered. If a bond is rated by more than one of the above agencies, then the iBoxx Rating is the average of the provided ratings.

**Currency**
Euro (EUR), Pound Sterling (GBP), US Dollar (USD)
