Lloyd's Register of Ships 2022-2023 Edition

First published in 1764, the Register of Ships continues to be the authoritative source of information on the world fleet, providing comprehensive information on all self-propelled, seagoing merchant ships of 100GT and above.

The information that is included in these reference works is drawn from our extensive database – the world's most complete source of maritime data.

Accurate source of maritime data you can rely on

The directory offers in-depth information directly from a validated source verified by S&P Global Market Intelligence editorial experts.
