

EDIN

A web-based solution that provides your fastest, easiest access to our most current E&P, Basin and Midstream content.

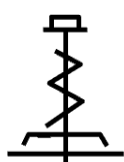

S&P Global
Commodity Insights

What is EDIN?

EDIN is the primary web interface into E&P, Basin, and global Midstream datasets from Commodity Insights.

Showcasing the most complete & up-to-date industry dataset available, EDIN enables our customers to analyze industry trends, screen and assess opportunities for investment at any scale from basin to block, mitigate against subsurface risks, track competitor activity, evaluate potential partners, benchmark reservoir performance, optimize investment decisions and navigate the energy transition.

E&P

- Wells & prospects
- Commercial and sub-commercial fields and discoveries
- Planned, active and historic licensing rounds
- Available farm-in opportunities & open acreage
- Seismic survey coverage
- Field and well-level production data

Midstream

- Transportation
- Processing
- Marketing

Basins

- Contiguous basin outlines
- Evolutionary history
- Plays & petroleum systems
- Stratigraphic charts
- Georeferenced basin maps
- Cross sections and play cartoons
- Exploration and development potential

Upstream Intelligence

- GEPS customer benefit from integration of our activity reporting service

EDIN can help with the following:

Basin Screening

- Evaluate and rank of sedimentary basins on a wide range of criteria
- High-grade the most prospective areas
- Map play fairways

Portfolio Optimization & Benchmarking

- Identify and assess available assets and potential partnerships
- Easily highlight under-performing fields and identify areas for improvement
- Screen assets for Improved Recovery opportunities

Reservoir Analogues

- Identify analogues based on a large range of reservoir properties
- Assess different field development technologies & IOR/ EOR types
- Examine production profiles

Opportunity Screening

- Easily identify available acreage
- Access detailed licensing round information
- Track planned and active exploration activity, high impact wells, prospects, and rig utilization

Competitor Activity

- Understand trends with regional & country, company entrants/exits, licensing round success, drilling success rates, annual production
- Profile company activity and position

Features

Data / Map search

Map

Collaboration

Visualization & Analytics

Map

Our cloud-powered EDIN map lets users easily visualize geographic trends and build custom maps for use in presentations and reports. Spatial toolkit at your fingertips including map visualizations; bubble charts to discover trends; create & share custom symbology and annotation.

Tailor the map to your specific workflow with the ability to add your own content via map services. Print to PDF or direct to PPT for easy presentation preparation.

Powerful Query

Easy filtering or custom query - as flexible as you need with the ability to search on any attribute.

Report

Either quickly-access our most used reports or take advantage of our fully customizable export capability to get the content that matters to you.

Data exportable to excel and csv. Common spatial formats are supported such as shapefile and geodatabase for taking straight to GIS applications.

Research reports available in PDF.

Frequent Updates

Never miss an opportunity with daily updated content.

Collaboration

Collaborate with colleagues, wherever they are. Save & share your queries and maps.

Visualizations and Analytics

EDIN Analytics are dashboards, leveraging powerful Spotfire technology, which allow you to explore, understand & explain trends or anomalies through intuitive visualization.

Supplemented with Spotfire and PowerBI dashboard templates for customers with our REST API access.

About S&P Global Commodity Insights

At S&P Global Commodity Insights, our complete view of global energy and commodity markets enables our customers to make decisions with conviction and create long-term, sustainable value.

We're a trusted connector that brings together thought leaders, market participants, governments, and regulators, and we create solutions that lead to progress. Vital to navigating commodity markets, our coverage includes oil and gas, power, chemicals, metals, agriculture, shipping, and energy transition. Platts® products and services, including the most significant benchmark price assessments in the physical commodity markets, are offered through S&P Global Commodity Insights.

S&P Global Commodity Insights is a division of S&P Global (NYSE: SPGI). S&P Global is the world's foremost provider of credit ratings, benchmarks, analytics, and workflow solutions in the global capital, commodity, and automotive markets. With every one of our offerings, we help many of the world's leading organizations navigate the economic landscape so they can plan for tomorrow, today.
