Country Classification

Fee Classification

Returns from securities lending relative to lendable value from all the lender funds who are part of the IHS Markit Securities Finance group.

Returns from securities lending relative to lendable value from only those lender funds with active loans in respective market areas that are part of the index. Funds are classified as active on a daily basis for individual market areas within the index.

Returns from securities lending relative to lendable value from only those lender funds with the highest loan value that represent 90% of the cumulative loan value in respective market areas that are part of the index. Funds are classified as high on a daily basis for individual market areas within the index.

Applied Jan 1, 2015 and further provides a break down by fee categories, top sectors & countries as well as the level of short interest in the index constituents.

Indexed Short Interest tracks the daily change in short interest relative to market capitalization calculated for the MSCI index with an index base date of 1st Jan 2015 where the index is set to a base value of 100.

Country classification for common equity securities done by IHS Markit Securities Finance is based on the country in which the security is traded with the exception of depositary receipts which are based upon the country of domicile.

Securities with value weighted average securities lending fees of <= 35 bps are classified as GC, > 35 bps & <= 100 bps are classified as Warm and >= 150 bps are classified as Special. This fee classification is done on a daily basis.
