

Maritime Portal Desktop – Ports

The Maritime Portal Desktop – Ports USB combines comprehensive information with a powerful database offering first rate functionality.

Detailed information on Ports, Terminals, and an exhaustive berths database, and port plans make this an unrivalled source of information for use both in the vessel operations department and onboard ship.

The USB includes

- **Identification**
- **Related ports**
- **Vessel restrictions**
- **Compliance**
- **Facilities**
- **Annual traffic**
- **MARPOL**
- **Port description:** location, general overview, load line zones
- **Pre-arrival:** ETA, documentation required, communications, health regulations, customs and immigration, standard messages, flags, notice of readiness, notices and regulations, agency
- **Navigation:** port limits, approaches, pilot, anchorages, tidal range and flow, dock density, weather, principal navigation aids, charts, traffic schemes, restrictions, tugs, coastguard, mooring information
- **Berths and cargo:** berths, berths names/nos, cargo, barges, ballast/slop reception, safety, security
- **General:** repairs, dry docks, bunkers/water/stores, medical facilities, transport, crew change, consuls, public holidays, working hours, fumigation, officials and visitors, seaman's mission, pollution, developments
- **Country:** ISPS, time, territorial waters, international dialling code, capital city, currency, capital airport(s), national airline, holidays, general, special requirements
- **Addresses:** port authority, port operators
- **Port images:** port plans
- **Notes**

Berths module

Also included is a berths module, where the user can search, and view the details for each individual berth held on IHS Markit’s extensive database.
