

# Kingdom<sup>®</sup> Training

Kingdom offers geoscientists an easy to use, fully integrated windows based, advanced seismic interpretation platform. Kingdom supports multiple authors in a single project, enabling large asset teams to share the same project, making better decisions, faster. Its scalable, multi-user database allows the entire asset team to work on the largest data sets and accomplish their work quickly and collaboratively.

The S&P Global training team provides you with the necessary skills and knowledge to help enhance the use of our information and applications. Equipping you with the knowledge you need in your daily business processes.

S&P Global offers comprehensive, effective, and quality training courses to educate and advance the knowledge of Kingdom software users all over the world.

Our trainers are industry experienced and Kingdom experts, delivering up-to-date practical courses that can be directly applied to real-world projects.

### **Benefits:**

- Enhance your interpretation by using Kingdom to its full potential through training.
- Learn to deliver smarter and quicker results.
- Be invaluable by consistently delivering accurate decisions through advanced Kingdom knowledge.

### **Types of training courses offered:**

**Public courses** — Delivered virtually via The Learning Center, your destination for all things learning and training. From getting started with geophysics to advanced mapping, 3D geological modeling and data management, our learning resources and courses offer options for everyone to build proficiency in using Kingdom for your seismic and geological interpretation.

Or attend in person at one of our S&P Global Training Centers. The S&P Global Training Centers are world class training facilities that are equipped to enhance training and give the optimal experience with our products for our clients.

**Private courses** — Training can be delivered on-site at your company's premises, virtually, or at any S&P Global Training Center to take advantage of our IT infrastructure. This is an effective way to offer training, when and where you need it. Courses can be delivered one-to-one or in a group. You can choose from our standard training courses or work with our training team to tailor a course to your requirements.

**Mentoring** — Private learning for individuals or small groups, where you can work on a project with an S&P Global expert. Have them share best practices and insight to real world scenarios that you and your company are currently facing.

### **There are several advantages of enrolling in a course:**

- Have your questions answered.
- Have your projects reviewed.
- Gain practical tips for improvement.
- Gain group insight and interaction.
- Engage with experts in the industry.
- Apply your learning to real-world situations.
