

# Debt domain Pipeline Reporting

**Debt domain offers arrangers an advanced web-based deal pipeline system that includes user-definable fields, flexible deal filtering and reporting.**

Our deal pipeline functionality makes it easy to collect syndicated deal information and create detailed and real-time reports on any basis, allowing you to make informed decisions.

Gain insight into your loan syndication business from underwritten positions, visibility of fees, unsold positions and analysis of where your new deals are coming from. Over 25 banks use Debt domain Deal Pipeline. We are uniquely able to share our experience in deploying deal pipeline for a large number of banks to the benefit of all our clients.

## Better data collection

Data collection from a web-based system means your reports will always have larger and more timely source information than Excel-based collection

- Integration with Debt domain Syndication Sites ensures that you only need to enter data once and in one place
- Dozens of common reporting fields are available, such as final take, underwritten/best efforts, and deal type. Create your own deal data fields including drop down lists, numeric, date, text or custom calculated fields
- You can logically group your custom fields to make data entry easy for originators and syndicate

## Flexible, real-time reporting

- Granular, flexible deal filter enables you to generate reports with only the deals you want. Example filters include deal type only (e.g. leverage, PF), borrower region and credit status
- Prepare and save any number of customized reports with drag and drop field selection, and create the reports you need with one click
- The exportable reports have a polished look; good to take to the Monday morning meeting
- Reports can be automatically emailed to selected recipients on a client defined schedule or upon request

## Key Stats

**25+**  
banks using  
pipeline reports

**24x7x365**  
global client  
service coverage

**SSAE16**  
certified annually

Arrangers	Deal	Deal Currency	Tranche Detail	Approved Final Take MM	Amount Projected MM	Commitments Due	Notes
Demo Bank	Acme Food Company Term Loan B	USD	Institutional 6 Term Loan yrs 250 USD 400 Jun 30 18	0	176.5	May 31 13	Deal is generally going well. - Mar 8 12
Demo Bank	Cleanwater Industries - Feb 2013	USD	Unspecified 0 USD	0	17.5		

## Security and reliability

- DebtDomain has been building and deploying web-based systems for loan syndication since 2002
- Data in transit is encrypted using TLS with RSA 2048 (encapsulating underlying High-Grade AE256bit encrypted session keys)
- Data within the database is encrypted using AES-128
- The application is subjected to yearly independent penetration tests, conducted by industry leading practitioners
- All web traffic is protected by AWS Shield Advanced and routed through AWS WAF
