Debtdomain Loan Syndication Sites

Debtdomain is the leading web-based system for managing the loan syndication process from pitch to agency.

Debtdomain has the largest community of arrangers, agents and investors, with more than 500,000 contacts. The intuitive interface is matched by the simplicity of our pricing – syndication site fees are on a simple deal basis and same for all clients.

Managing your deals has never been easier, you can control documents and access via a secure and reliable system. Debtdomain meets the stringent security, compliance and business continuity requirements of the world's leading banks.

Manage your entire deal process

– **Create** your deal in minutes, and add the deal team. Include as much information as you need about tranches, pricing, bank meetings, and much more for staying on track

– **Link** investors from a global curated database of contacts

– **Launch** arranger branded online deal sites to provide secure access to deal information and documents

– **Record** investor feedback, update status and track commitments in real time

– Produce presentation-quality reports on deal status and investor activity, with one click

– **Set up** investor meetings or conference calls with automated RSVP tools

– Easily **search, dial and email** investor contacts from your mobile device

Control documents and access

– **Drag and drop** files from your desktop to the dataroom, one at a time or in bulk without any special software

– **Control** access to deal sites, folders and individual documents or add additional security through watermarking, and print or download restrictions

– **Post** standard or custom confidentiality agreements, set up public/private compliance declarations

– The '**Add Colleagues**' feature allows investors to add their colleagues, removing the administrative burden from the deal team. The deal manager will always be notified of who and when accesses the site

– Automatically **discontinue** document access to declined investors
