

IHS Markit®

Upstream Intelligence

The Exploration & Production industry's leading
real-time commentary on worldwide activity

Whether monitoring competition, analysing activity, or tracking how field life is being prolonged, the Upstream Intelligence service from IHS Markit provides accurate, up-to-date information tailored to your specific requirements.

The IHS Markit Upstream Intelligence portfolio **sits at the intersection of commercial and subsurface activity**. It both supports and utilises the world's most extensive E&P database to provide the **most complete, detailed and up-to-date** picture of upstream activity across the world.

Clients use the complete and integrated package of information and tools to:

- Reduce research time with single-source information
- Monitor portfolio impact of developments
- Empower licensing round negotiations
- Discover and exploit new opportunities
- Review the competitive landscape
- Evaluate potential partners

Our key strength is providing an **informed, independent and impartial research perspective that frequently contradicts the mainstream media**.

Detailed look at Product Content and Delivery

Global Exploration & Production Service (GEPS)

Detailed E&P coverage from GEPS is worldwide, with content continually updated; access both up-to-the-minute and historical information on a wide range of topics, including:

Petroleum Rights	Exploratory Drilling	Production & Reserves	Field Development
<ul style="list-style-type: none">- Licence Rounds- Opportunities- Company Deals	<ul style="list-style-type: none">- Current/Planned Wells- Hydrocarbon Discoveries- Play Openers	<ul style="list-style-type: none">- New Fields on stream- Monthly Production Updates	<ul style="list-style-type: none">- Planned / Current Developments- Abandonment / Decommissioning- Activity Maps

The dynamic filter menus show at a glance the key players in any given area; which basins host the most activity; and which topics are trending where. Use the customisable Dashboard and Cross-Product Search to view and compare content side-by-side.

GEPS allows you to generate your own custom search results and dashboard views and save them for later; dynamic updates mean **you will always log in to fresh information**. Customise your own reports and e-mail alerts.

This unique service is built on an **unrivalled foundation of knowledge, experience and understanding of the industry** and is written by E&P professionals, located strategically around the world.

Integrated E&P workflows via EDIN

GEPS content is also now available within EDIN, bringing together and enhancing existing workflows, and building meaning and context into your visualisation of the E&P landscape.

International Energy Letter (IEL)

The International Energy Letter delivers to E&P and Finance professionals a weekly overview and high-level analysis of Energy activity worldwide. The speed, coverage and content saves time and money – placing events and trends in context, and explaining: “**so what?**”

Content is available online and as a PDF via weekly e-mail, and includes:

- International Energy Letter Weekly Report, including
 - Weekly global E&P activity and statistics
 - Monthly rotating supplements
 - Quarterly industry reviews
- Monthly Global and Regional Trends Reports
- Quarterly international Bid Round and Open Acreage Review
- Annual worldwide Discoveries and Highlights review

Access to our Experts

More than just a website – an Upstream Intelligence subscription also provides you with **direct access to our team of GEPS Experts**, who will draw on their cross-industry knowledge, connections and experience to discreetly answer your queries and provide further information.

Daily Exploration Alert (DEA)

The Daily Exploration Alert has been providing **the E&P industry’s most up-to-date breaking news service** electronically since 1984.

A favourite with oil & gas professionals who prefer to scan a round-up of the latest industry news, the Daily Exploration Alert provides an easy-to-use online service, plus delivery via **e-mail alerts**, RSS feeds and the **Upstream Alert mobile app**.

Coverage includes daily benchmark crude pricing (+ weekly summary), plus topics such as:

- General Industry-wide Issues
- Acreage Offers & Relinquishments
- Exploratory Drilling
- Geophysical Surveys
- Company Deals

GEPS Maps

Visualise accurate, up-to-date E&P activity by region, country/territory, and activity hotspots such as basins.

With **more than 550 full-colour GEPS maps** available via your GEPS subscription, you can easily:

- Visualise wells, fields, contracts, key pipelines
- Select workflow-applicable maps by scale and level of detail
- View maps in hardcopy or PDF format

Key Differentiators

Industry scouting network

Global Coverage:

Unparalleled communication network with operators, national oil companies, government agencies and service companies worldwide. Numerous technical teams positioned around the world, proficient in more than 30 languages, with hundreds of daily contacts, covering activity in over 215 countries and territories.

Comprehensive Data:

Leveraging IHS Markit's world-class upstream information to create and maintain the most complete and up-to-date analysis of upstream projects.

Access To Experts:

Our Regional Experts provide information clients can rely on, due to our rigorous research, corroboration and independent evaluation of detail.

If the client cannot find what they are looking for in GEPS - or if they seek our individual take on a matter - they can reach out to our experts directly for discreet assistance.

Essential Intelligence

Exploration / Geologists

- Where should we prioritise future exploration efforts?
- What's happening below-ground near current development opportunities?

New Ventures / Business Development (E&P / OFS)

- Where are new, high-quality opportunities arising that will enhance our company's existing portfolio?
- How successful have nearby projects been, and has there been any activity that would change our perspective on a basin/country opportunity level?

Senior Managers / Executives

- What's happening in the industry today? What's the overall picture?
- How is my company's success being reported? How does my company compare alongside our peers?

Government – Energy Departments, NOCs

- How does my country's energy sector compare to our peers? Are we more or less attractive? What can we learn?
- Are there discoveries that might extend into our borders, and what do they mean?

Finance / Banks

- International Energy Letter: Which areas are producing successful E&P results? Who are the key industry players in a given area? What are the key trends?
