High-Level Procedures

1. S&P Global will publish a Sukuk Reference Obligation List for each of the Reference Entities selected by the Markit RED Emerging Markets Trading Group.
 - a. The Sukuk Reference Obligation Lists will be subject to an annual review by the Markit RED Emerging Markets Trading Group. This annual review will also be communicated to the ISDA Credit Market Infrastructure Group, to ensure wide and transparent communication of any potential amendments to the Sukuk Reference Obligation Lists.
2. Markit RED Emerging Markets Trading Group members can propose changes to the existing lists or the creation of a new list (to include a newly traded Reference Entity) at any time.
3. Markit RED Emerging Markets Trading Group members will have the ability to veto, prior to the publication of a Sukuk Reference Obligation List, the inclusion of a Reference Entity or Reference Obligation on the basis that it does not satisfy the conditions of the Additional Provisions for Sukuk Reference Entities as published by ISDA.
4. Until a consensus is reached within the Markit RED Emerging Markets Trading Group, the Reference Entity or Reference Obligation will not be updated or added to a new or existing list.
5. Following the review of a Sukuk Reference Obligation List by the Markit RED Emerging Markets Trading Group, S&P Global, where possible, will arrange for the Reference Entity name to be legally verified and a 9-digit RED Code will be assigned to the list.
6. If the Entity or Obligation documents for a Reference Entity or Obligation are not available, S&P Global will inform the Markit RED Emerging Markets Trading Group that it is not possible to legally verify the Reference Entity or Obligation.
7. All Reference Obligations for each of the Reference Entities will be determined by the Markit RED Emerging Markets Trading Group, and a consensus will be sought to determine the entire list of Reference Obligations to be contained within the relevant Sukuk Reference Obligation Lists.

Amendments to the Sukuk Lists to list additional Reference Entities and Reference Obligations

1. Any firm that participates in the Markit RED Emerging Markets Trading Group is able to propose the creation of a new Sukuk Reference Obligation List or the amendment of an existing one, to cater for the inclusion of additional Reference Entities or Obligations. S&P Global will then seek consensus within the Markit RED Emerging Markets Trading Group as to the inclusion of these.
2. Any additional Reference Entity, where possible, will be legally verified and assigned a 6-digit RED Code (for the entity) and a 9-digit RED Code will be assigned to the Sukuk Reference Obligation List.
3. Reference Obligations for any additional Reference Entities will be agreed by the Markit RED Emerging Markets Trading Group; until a consensus is reached the Reference Obligation(s) will not be updated or added to the list.
4. S&P Global shall monitor the legally verified Reference Entities and Reference Obligations for corporate events resulting in name change or bond redemption.
5. S&P Global will bring any discrepancies or changes to the Markit RED Emerging Markets Trading Group and the ISDA Credit Market Infrastructure Group attention, who will decide on the best course of action.
