

IHS Markit™

# WellTest - Advanced Pressure Transient Analysis

## Main Features

### Quick & Easy Data Entry:

A comprehensive system of wizards is designed to guide the user through the appropriate steps to ensure data is entered properly and that a reliable analysis is obtained.

### Pressure Transient Analysis (Conventional):

Analyze drawdown/build-up data or injection/fall-off data for gas, oil and water wells. Use both vertical and horizontal well configurations.

### Pressure Transient Analysis (Unconventional):

Analyze pressure buildup after perforating or pressure falloff following mini-frac tests.

### Deliverability Forecasting:

Predict the deliverability of a well based on modeling results. Generate “what-if” scenarios to determine the increase in deliverability expected from stimulation or adding compression.

### Test Design:

Simulate a test to determine optimal test procedure. Determine if a horizontal well should be considered as an alternative to a vertical well.

### Analytical and Numerical Modeling:

A host of analytical models are available to history match data, including models for multi-frac'd horizontal wells and for matching mini-frac after-closure data. Numerical models for handling multfrac'd wells drilled in black oil, volatile oil and rich gas condensate reservoirs are also available.

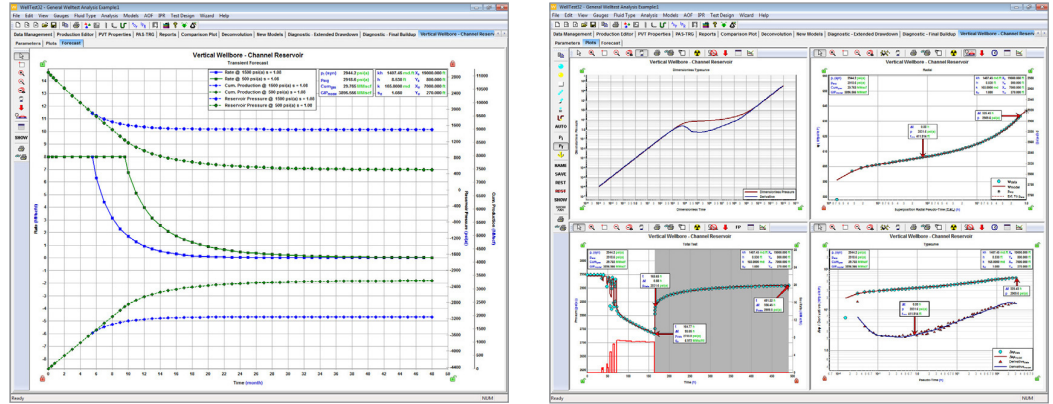

### PAS Requirements:

Meets ERCB Pressure ASCII Standard (PAS) requirements for electronic test data submissions in Alberta, Canada. TRG.PAS files can be easily created, viewed and edited.

### Other:

Analyze results from multi-rate tests to determine the components of the total skin factor. Establish IPR and OPR based on test results.

### About IHS Markit

IHS Markit (Nasdaq: INFO) is a world leader in critical information, analytics and solutions for the major industries and markets that drive economies worldwide. The company delivers next-generation information, analytics and solutions to customers in business, finance and government, improving their operational efficiency and providing deep insights that lead to well-informed, confident decisions. IHS Markit has more than 50,000 key business and government customers, including 85 percent of the Fortune Global 500 and the world's leading financial institutions. Headquartered in London, IHS Markit is committed to sustainable, profitable growth.
